

## ENVIRONMENTAL MANAGEMENT POLICY

Malaysia Airports is committed to operate its Airports and other Business units in full compliance with applicable environmental national and international statutory and regulatory requirements, hence we shall:

### Compliance

Ensure compliance to all applicable environmental legislation, standards and other requirements.

### Leadership

Inculcate and demonstrate strong, visible leadership and behaviour towards environmental stewardship through protection, conservation and sustainable practices.

### Business

Integrate a sustainable environmental values and best practices in our core business.

### Stakeholders & Community Engagement

Proactively communicate and engage our environmental strategic goals and expectations to our community and stakeholders.

### Objectives and targets

Incorporate continuous improvements by setting clear objectives and targets in our environmental approaches and performance.

### Monitoring & Reporting

Ensure effective monitoring and reporting of environmental performances and occurrences to the community and stakeholders

### Training

Nurture employees' for personal growth through skill-enhancing training and education programmes

Successful implementation of this policy will enhance our reputation in managing our environment and create long term value for our stakeholders and our country. We believe that it is pertinent that our employees and our community understands Malaysia Airports' impacts onto the environment and how we can contribute positively to a better and greener workplace in the long run.

A handwritten signature in black ink, appearing to read "Datuk Mohd Badlisham Bin Ghazali".

DATUK MOHD BADLISHAM BIN GHAZALI  
MANAGING DIRECTOR  
MALAYSIA AIRPORTS HOLDINGS BERHAD  
1 FEBRUARY 2017
